Autocreate books from pdf

Posted by irbian - 2015/05/21 09:00

I actually was expecting to import the pdf directly, instead of importing the pdf and later creating a book pointing to the folder I have just created. Would be better to streamline this process (or maybe IÂ´m missing something)

Hello,

We will take your suggestion into account and implement the feature in a future version of the extension.

Regards,
ARI Soft

I use a PDF printer driver in Word (Bullzip)and create the images by printing to JPG one image per page, it's just a case of uploading the images. Make sure the sort order is correct though.
