
Little squares/ missing images in navigation bar

Posted by Sark - 2015/06/02 11:19

Hi,

I just installed the smart book software and created my first book, everything seems to be working but there are small squares around the navigation icons above the book as if images are missing or not rendered. See screen shot attached.

Please advise

Thanks

Hello,

It seems this is a problem with site template styles. Could you send a link to a page where the problem occurs so we can investigate the problem in more details?

Regards,
ARI Soft

Add the following CSS rules:

```
.smartbook-toolbar-buttons LI::before {content:""!important;}  
.smartbook-toolbar-buttons LI {padding:0!important;}
```
