# ARI Smartbook Category Layout

Posted by chrismedina428 - 2015/08/02 00:34

---

I would like to display books in the menu category view in a row with the description at the bottom, instead of in a column. How do I do that?

Hello,

Try to add the following CSS rules to a site template CSS file:

```
DIV.smartbook-category-layout .smartbook-list-item {
  width: 33%;
  float: left;
  border-bottom-style: none !important;
}

DIV.smartbook-category-layout .smartbook-cover {
  float: none;
  width: 100%;
  text-align: center;
}

DIV.smartbook-category-layout .smartbook-description {
  padding-left: 0;
}
```

Regards,
ARI Soft
