# ARI SMART BOOK

Posted by Brienois - 2015/08/29 06:52

_____

hello !

I would like the image completely fills the cover page
 I do not know how to do
 The attached file is more explanatory
 Many thanks http://www.ari-soft.com/images/fbfiles/images/cover.jpg

_____

Hello,

Open "ARI Smart Book -> Templates" page and select template which is used by the book. Then open "Styles settings" tab and populate "Optimum page width" and "Optimum page height" parameters with width/height of images which are used in the book. After this open "Book settings" tab and set "Page image scale" parameter to "Fill page" value.

Regards,
ARI Soft

_____

Hello,

I just tried, but still not succeeded!

I must have missed something!

I put my parameter values to the attached image

Many thanks

_____

Add the following CSS rules to "Styles settings -> CSS Styles" parameter in template settings and clean browser's cache. It should help.

Regards,
ARI Soft
