
Lightbox settings

Posted by sktalwar - 2017/12/07 17:54

Hi,

I downloaded your free plugin. I'm using Divi theme. Once the plugin is activated, I cannot see its functions. Right now in galleries, images are opening in Divi lighthouse and not Ari. What do I need to do?

Thanks

Seema

Hello,

Navigation buttons are not shown because a custom gallery are used. Open "Integration" tab on "ARI Fancy Lightbox -> Settings" page and add the following code to "Images -> Custom grouping selectors" textarea:

.masonry .grid-item A

Hi,

Nothing happened with that code. Could you direct me to some documentation how to set up.

Thanks

Could you provide a link to a page with the gallery?

Regards,

ARI Soft

Hi,

Could I pm you the link as the site is not live yet.

Thanks

Open "Integration" tab on "ARI Fancy Lightbox -> Settings" page and populate "Images -> Custom grouping selectors" parameter with the following value:

`.et_post_gallery$$A`

After this open "Advanced" tab and populate "Custom JS code" with the following code:

```
setTimeout(function() { $(''.et_post_gallery').off('click'); }, 10);
```

Sorry for the late repsonse.

The code works beautifully. Thanks for all your help.

On another note: how can I increase the zoom factor?

Thanks

The plugin zoom image to original size. Zoom calculates automatically depends on original image size and browser window size.

Is there a option to set it to zoom more? Is it available in pro version?

Thanks for your quick response.

The plugin (free and PRO versions) doesn't zoom images more than original size.
