
Image Description from image meta data

Posted by supercharger88 - 2018/11/22 22:07

Hi,
Is there a way to show both Image Title AND Image Descriptions from an image's meta data ? I am using the lightbox (Personal version) together with Foo Gallery.

Thanks

Hello,

Currently the plugin doesn't support this ability, but we will implement it in the next version of the plugin.
