
PHP Support

Posted by HahnManfred - 2022/10/19 07:55

Hello, will there be an update for newer PHP-Versions than 7.4? I understand, if it will not be supported. But right now I would build a homepage, that uses data tables extensif. So I would save my time.

Hello,

Currently we don't have an ETA when it is ready.

Regards,
ARI Soft

Sadly, that seems to be the standard answer to any request for support updates :(
