
Use percent of score

Posted by Federico - 2010/02/22 09:50

Hi!

It is inconvenient to use percent as a 'Result Scale'. If not to use a floating point it will sometimes lead to discrepancies. For example, if the sum of question score is more 100. It would be desirable to have an option to use score. Probably it makes sense to add the menu 'Tuning'?!

P.S. Personally to me, use of percent, in Ari Quiz, adds superfluous work.

Best Regards.
