
Possibility to answer as image

Posted by Jonte - 2016/04/09 07:36

It would be nice to have a new question type or let Essay type to accept answer as image.

Best idea would be to let user to take snapshot from screen and paste it as an answer (in essay or in own box). Also clipboard could be used.

This way student could first take math test even with GeoGebra and paste answer for question.

Hello,

We can implement this question type as a custom development.

Okay so adding it to essay question type or completely new question type?

Will it cost much or not at all?
