## Exporting Quiz and Inporting to Another Site

Posted by workcomp1 - 2021/02/15 14:37

---

I have multi-site license I built a quiz on one of our sites and I need to export it to another one of our sites. We are going to put the quiz on a subdomain. I cannot find a way to export the quiz. If that feature was available this would be the perfect quiz application.

Hello,

Sorry, but currently this feature is not supported. We have it in our TODO list.

Regards,  
ARI Soft

You can do it through cpanel and phpmyadmin..
