Thanks for your help installing the component.

I finished the setup and I tried to add a scroller to the page: http://texastitansvbc.com/2011-11-17-22-35-18/16s-national

The text appears but it doesn't crop to the asked size and it doesn't move at all.

Can you help me?

Hello,

Upgrade "ARI Sexy Lightbox" to the latest version. It should help.
