## any difference Scroller vs JScroller

Posted by apsites - 2010/09/13 08:32

---

Is there any functional difference between Scroller and JScroller (part of Smart Content Pack)?

My customer liked my demonstration of JScroller, but I guess I am OK with bying just Scroller instead of the whole Smart Content Pack, right?

Thanks,  
Andre

Yes, it provides the same functionality, but 'ARI Smart Content' includes many other plugins.

Regards,  
ARI Soft
