_____

Hi,
I am using ARIJDIALOG on one site and
when I view it with IE6.0 the position
of the dialog and the elements on this dialog
are not correct.

You can see it with IE 6.0 when you are logged in with user:test pw:test on the site:
http://www.aktionsfinder.at/aktionsfinder/meine-einkaufsliste.html

and press the Button: 'Notiz erstellen'
