
localhost-licence for workaround of life-website

Posted by dietbox - 2011/01/23 15:44

Hello ARI-Team,

I have an actually licenced Version of ARI Smart Content on my web-domain.
Now I'm planning a bigger workaround of the Site (some weeks or so), which I would do parallel on localhost.
How can I licence localhost for the implemented ARI contents?

Regards

Hello,

Find license key for "localhost" domain in "Member Area" please.

Regards,
ARI Soft
