## how to update new ARI-files

Posted by dietbox - 2011/01/24 08:01

---

Hello,

how and/or where can I get information about possible new parts of my licenced packages?  
If there are new versions, what is the Process for Download and update?

best regards  
dietbox

Hello,

Download new version in "Member Area" on our site, uninstall old version on your site and install new version through standard Joomla! installation page. All component settings remain untouched.

Regards,  
ARI Soft
