
arimoonewsticker movement direction

Posted by mniederm - 2011/01/24 11:01

Hi,

how can I change the movement direction for the newsticker?
I tried movementDirection="right", but it do not work.

Thank you for your reply.
Best regards
Michael Niedermoser

Hello,

Add opposite="true" attribute to "{arimoonewsticker}" tag.

ok,

then the newslider moves to the right, but the left image hides. How can I change it that it moves to the right and the right image hiddes?

THX Michael
