_____

Hi,
me again :)

just check and columnspan function dont work in IE at all

i'm working in firewfox browsing in chrome but most of people use IE :(

..

..

just check in opera - ok

_____

Hello,

We have investigated your issue. It isn't IE problem. You can view source of your page and see that HTML is correct.
Problem how IE and other browser apply with for column in cell. Try add the following CSS rule to your CSS file, please:

TABLE.VK TR.actRow_0 TD.actCell_2,
TABLE.VK TR.actRow_0 TD.actCell_5,
TABLE.VK TR.actRow_0 TD.actCell_11
{
  width: auto !important;
}

Regards,
ARI Soft
