Hi there,

I am using ARI JTable Sorter in a module position and it displays correctly and sorts, but I get these errors on the top of the page. Please tell me what did I do wrong?

Notice: Undefined variable: mambot in /home/bpatch1/public_html/everydaygeorgia/plugins/content/bot_mb.php on line 53

Notice: Undefined variable: mambot in /home/bpatch1/public_html/everydaygeorgia/plugins/content/bot_mb.php on line 55

Notice: Trying to get property of non-object in /home/bpatch1/public_html/everydaygeorgia/plugins/content/bot_mb.php on line 55

Notice: Undefined property: JParameter::$text in /home/bpatch1/public_html/everydaygeorgia/plugins/content/bot_mb.php on line 64

Thanks,

HD

Hello,

It seems that it problem 3rd party plugin 'MultimediaBox'.

Regards,
ARI Soft
