News Slider stuck to loading

_____

I just purchased this pack. The installation went smoothly but I unter this code in my article

{arijnewsslider speed="2000"}
 {arijnewsslideritem title="Title 1"}
 News1 news1 news1
 {/arijnewsslideritem}
 {arijnewsslideritem title="Title 2"}
 News2 news2 news2
 {/arijnewsslideritem}
{/arijnewsslider}

The module in the article displays "loading..." all the time. Any idea why?

Set property 'No Conflict' to 'Yes' in ARI JQuery Loader plugin if you are used Joomla 1.5. Say link where we can see this issue if problem still appears.

Can you provide access to your Joomla backend that we can investigate this issue?
