
data error and no license code available?

Posted by wertbar - 2011/05/03 18:26

Can PLEASE someone from ari soft help me, cause can't use anything (data error)! <http://www.ari-soft.com/images/fbfiles/images/nolicense.png>

Hi:

Same here. I have purchased two licenses of the Smart Data Pack. Saw this problem some days back but I am concerned as it is still happening.

Hello,

Sorry for inconvenience. It was some problem with our hosting provider, but now license keys can be generated in "Member Area" without problem.

Regards,
ARI Soft
