## ARI Smart Content install problems

Posted by SimonDainty - 2011/05/08 11:13

---

Hi there, during installation on a test site i get the following error message:

ARI XML: Error at line 56 column 87. Error 20: unclosed CDATA sectionARI XML: Error at line 46 column 2. Error 5: unclosed tokenARI XML: Error at line 46 column 2. Error 5: unclosed tokenARI XML: Error at line 44 column 2. Error 5: unclosed tokenARI XML: Error at line 44 column 2. Error 5: unclosed token

The component appears but when used on any page i get the following messages:

Warning: Unexpected character in input: '"' (ASCII=39) state=1 in  
/home/elloskjo/public\_html/plugins/content/arismartcontent/content/ari\_csv\_table4dc5a3a5c9d40/aricsvtable.php on line 18

Parse error: syntax error, unexpected \$end in  
/home/elloskjo/public\_html/plugins/content/arismartcontent/content/ari\_csv\_table4dc5a3a5c9d40/aricsvtable.php on line 18

If you could help to point me in the right direction - that would be much appreciated.

S

Hello,

Could you specify what Joomla! version you use?

It is possible to provide temporary access to your Joomla! backend by email that we can investigate the problem? We can install the extension on Joomla! 1.5.23 on our test server without problem.
