aridatatable fatal error Posted by ultravelvet - 2009/03/12 20:27 complete newbie here. i'm trying to use the aridatatable. i created a folder and placed my csv file there (it's quite large and will get larger as time goes on). i created an article and loaded this code: {arijdatatable} {aricsvtable file="indexdata/Stradinfo-081115.csv" delimiter=";"} {/aricsvtable} {/arijdatatable} on the frontend, when i navigate to the article, i receive this error: Fatal error: Allowed memory size of 33554432 bytes exhausted (tried to allocate 4335665 bytes) in /home/g4g303/public_html/cauer/plugins/system/sef.php on line 62 please let me know what i'm doing wrong. thank you, lisa Re:aridatatable fatal error Posted by admin - 2009/03/12 20:32 Hello,

Regards, ARI Soft

Can you provide this CSV file by email info@ari-soft.com?
