
cannot display sql query wirh arisqltable

Posted by Kontiko - 2009/03/19 09:52

Hi. With many attempts i manage to display the data i needed yesterday, but than something happened and today i can't view the data with the same source.

I've tried with copy/paste the source generated at the demopage.

Entered in PHPMyAdmin and tried the sql - it works.

The plugin parameters are:

CSS Class
Width 60%
Cell padding 1
Cell spacing 1
Save HTML tags Yes
Header No
Footer Yes

Any ideas?

Hello,

Can you provide access to your Joomla backend by email that we can investigate this issue?

I have fixed the problem.

Thanks for the quick reply and sorry for the lost time. :)
