
accordion settings

Posted by hkraskian - 2011/06/11 09:25

I have two questions.

- 1- How force accordion item to close by clicking on title when it is open.
- 2- Extra space after title in IE8. why? and how to remove it?

Hello,

1. Set "Always Open" parameter to "No" in plugin settings or add alwaysOpen="0" attribute to {arijaccordion} tag.
2. If you use s WYSIWYG editor, switch it to plain text mode and check that code looks correctly because WYSIWYG editors can add extra HTML code in design mode.

Regards,
ARI Soft

Thank you. Both recommendations were useful.
