## Colorbox Descriptions not showing

Posted by pigirl - 2011/06/23 13:22

---

Hello, My descriptions in Colorbox are not showing up - I am new to this and have tried many things, can't seem to figure it out. I am integrating it with Slick Gallery like your online sample.

Here are the contents of my csv file. I've opened it in OpenOffice & TextWrangler and it is viewed two different ways. This is how I've last tried it:

```
"BestOf2011.jpg","Named 1st Runner-UP 2011!"  
"Blonde.jpg","Styles that turn heads"  
"GS_Sign.jpg","Located in Farmington CT"
```

and this is where I am building it:  
<http://galleriesalon.com/index.php/gs-photo-booth>

If you could point me in the right direction I would appreciate it!  
Thanks!

Hello,

Header columns are missed in provided CSV file. It should look like:

```
"File","Title"  
"BestOf2011.jpg","Named 1st Runner-UP 2011!"  
"Blonde.jpg","Styles that turn heads"  
"GS_Sign.jpg","Located in Farmington CT"
```

Regards,

In additional to the previous post, if you want to use "ARI Colorbox" with "ARI Slick Gallery" and show titles in the lightbox, it requires to place them in INI file for "ARI Slick Gallery". INI file will look like:

```
BestOf2011.jpg="Named 1st Runner-UP 2011!"  
Blonde.jpg="Styles that turn heads"  
GS_Sign.jpg="Located in Farmington CT"
```

Thank you for your response.

---

Just to be clear...if I want captions ONLY in the lightbox (when integrating Slick Gallery & Colorbox) I need to have both the ini file AND csv file in use? Or do I only need the ini file if I want to show it on the Slick Gallery thumbnails?

---

When "ARI Colorbox" is used by "ARI Slick Gallery", INI file will be used in this case. CSV file is used when "ARI Colorbox" is used directly for creating image galleries.

Beautiful! Thanks SO much!!!!

I gave it good effort (hours!), but could not figure it out - now I understand a bit better what is happening through your reply. Thanks again.
