
AriJCyclePlugin PHP Error

Posted by ckaun - 2009/06/30 18:05

Hi,

after installing the AriJCycle-Plugin i get a PHP-Error:

Notice: Undefined property: AriJCyclePlugin::\$_idList in
\\plugins\\content\\arismartcontent\\content\\ari_jcycle4a...\\arijcycle.php on line 179

I'm using ARI Smart Content 1.7.0, Joomla 1.5.10, PHP 5.2.9-2, MySQL 5.0.51, Apache 2.2.11(Win32)

Any suggestions?

Regards
ck

Hello,

We have fixed it. Download the plugin and re-install it, please. Sorry for inconvenience.

Regards,
ARI Soft
