---

Hi,  
could you please check my ari configuration, because when i add more column in may csv file, it show blank page.  
i want to display many column and rows in the website. is it possible ?  
here is my testing site: <http://product.blue-glue.com> ( i also already sent you the backend login to your email)

Hello,

Try now please.

Regards,  
ARI Soft

thanks worked great.

PS: We have installed "PHP Settings" plugin and increased value of "memory\_limit" PHP parameter.
