Hi ARI Soft!

After my Provicer changed to PHP-Version 3.5.10 I get messages like the following a long as the Plugin System - ARI Smart Content ist aktive:

Notice: Constant ADODB_FETCH_DEFAULT already defined in
/var/www/web82/html/administrator/components/com_arismartcontent/kernel/DB/ADODBLite/adodb.inc.php on line 19

Notice: Constant ADODB_FETCH_NUM already defined in
/var/www/web82/html/administrator/components/com_arismartcontent/kernel/DB/ADODBLite/adodb.inc.php on line 20

Notice: Constant ADODB_FETCH_ASSOC already defined in
/var/www/web82/html/administrator/components/com_arismartcontent/kernel/DB/ADODBLite/adodb.inc.php on line

21 Notice: Constant ADODB_FETCH_BOTH already defined in
/var/www/web82/html/administrator/components/com_arismartcontent/kernel/DB/ADODBLite/adodb.inc.php on line 22

What do I or the provider have/has to do?

Thanx
Martn

Hello,

Could you provide a temporary access to your J! backend by email so we can investigate the problem? It can be a conflict with a 3rd party extension.

Regards,
ARI Soft

Well, I think I was a bit too hasty. It is just a matter of the Joomla error report setting. It is okay now. Thanx for your helping offer. I'll come back on more serious problems ;-))
Martin
