## tabview not working

Posted by vieuxcampus - 2012/03/22 16:14

---

hello,  
I just wanted to testrun the tabview plugin with a simple syntax and was unable to make it work. I must be missing something.

Can be seen here:

[http://www.campuslille.com/index.php?option=com\\_content&view=article&id=1345&Itemid=96](http://www.campuslille.com/index.php?option=com_content&view=article&id=1345&Itemid=96)

thanks for help

regards

=====

Hello,

Check that "System - ARI Smart Content" plugin is installed and enabled.

Regards,  
ARI Soft
