Count impressions in MooNews Ticker?

Posted by sbi - 2012/04/03 17:53

_____

Hi there,

I'm thoroughly enjoying the Smart Content pack.

Question: Is there any way to count the number of impressions per article using MooNews Ticker?

Thanks much!

_____

Hello,

Could you explain what do you mean under "count the number of impressions"? Joomla! articles contain "Hits" field or you mean something another?

Regards,
ARI Soft

_____

We were tossing around the idea of using this in place of another extension for displaying image ads.

Thanks for the fantastic support response time!

_____

"ARI MooNews Ticker" plugin can work with Joomla! articles, it doesn't work with a 3rd party extension.
