why is title truncated? (jaccordion) Posted by sbi - 2012/05/07 19:32
Hi,
I must be missing something obvious. Can you tell me why the titles of my articles are truncated here? http://yousaygo.com/contact-corporate
This is my code in the arismartcontent module: {arijaccordion animated="easeslide" width="265" articleCatId="76" useJoomlaArticle="true" autoHeight="false" articleRandomize="true"} {articleTitle}{\$title}{{articleTitle}} {ariarticletemplate} {\$introtext} {/ariarticletemplate} {/arijaccordion}
I tried adding in {\$title truncate:100} to see if it would somehow force the characters to show.
Thanks!

Hello,
Download and upgrade the component. It should help.
Regards, ARI Soft

I've just downloaded again and upgraded the component and am still seeing the same results.

It works fine on our test server. Could you provide a temporary access to your J! backend by email so we can investigate the problem?
Regards, ARI Soft

I'll PM you the login right now.

Re:why is title truncated? (jaccordion) Posted by sbi - 2012/05/08 19:30
Should I email it? I dont see a way to PM to you.
Re:why is title truncated? (jaccordion) Posted by admin - 2012/05/08 20:50
Send it by email.
Regards, ARI Soft
