Joomla: 1.5.15

The table is displayed correctly but the sorting is not working. The 3rd column is not supposed to be sorted.
Any ideas?

Thank you for your time and help.

Hello,

It seems that you disabled sorting for the 3rd column. Could you provide code which you use for showing table?

Regards,
ARI Soft

_____

{arijtablesorter defaultSorting="1:DESC" sorting="TRUE" notSortableCols="2"}
Aha, I just found that I had double tbody for every .

Thank you.
