Hi

Where can I get French language pack?

Thank you.

Hello,

The extension doesn't contain French translation.

I just purchased this 2 minutes ago and NOW I discover there is no French translation???

If not, what do I need to do to create one?

I only need this in French and had I known it wasn't available beforehand.....

Hello,

Read our previous post, we wrote the extension doesn't contain French translation. If you want to translate backend part, it is possible to create a new language on "Components -> ARI Smart Content -> Languages" page.

If you read my post you will realize that I DID read the previous post, but that was 4 months ago - I thought that maybe you had either added it in the interim or, at least, had asked people to supply you with translations that you could add to the package. Food for thought:)

Sorry, but we don't have a French translator.

Currently we are working on new version of the extension and it will Joomla! internalization.
