## arisqltable as modul ok but not in an article

Posted by rainer.wragge@googlemail. - 2013/01/12 19:32

---

Hi to everyone and thanks for these nice gadgeds..

i installed the smartcontent without any problems reporting.

when i put my sourcecode into the module, it show up my table and works fine. .... when i put the same source code into an article, it just shows the source code as plain text....

i tried several way to put it into the editor.... to be sure its not stripped off.....

do u have an idea?

joomla 2.5.8

thanks in advance.

regards

=====

....ok. its working now....

in the plugin settings turn 'all compoents' to ON.....

dont know what this means but it works ;-)
