nothing work at all!!!

Posted by mohanned2012 - 2013/02/05 09:16

_____

i ve just bought 5 products of ari soft product
including smart content and paginaator and i can get any one of them work the problem with paginator is that it doesnt show ANY articles on the webpage and i send an email with all details ..and the smart content i dont know if i am using it the right way ...i installed the plugin and enabled it and when i write the code on the plain text side on the WYSWYG the code is appear on the page as a content any help please ..i feel like i made big mistake by purchasing this products

_____

Hello,

Find the answer here.

We can investigate the problem if you provide a link to a page where we can see it because we don not know what plugin code and where you use.

Regards,
ARI Soft
