## hide a column

Posted by nrju - 2013/03/31 18:21

---

Dear,  
I have a csv file but I would like to ignore the first column when I show my graph !!!  
How ist it possible ???  
Thank's for help

Hello,

Do you use "ARI Smart Content" or "ARI Data Tables" extension?

Regards,

Dear,  
I use Ari Data Tables !!!

---

Set "Columns settings -> ID" parameter to 0 and set "Columns settings -> Hidden" parameter to "Yes" in module settings.

Regards,  
ARI Soft
