Posted by remaxpatr - 2013/04/16 17:59

I've installed Arismart Content and now it is interfering or intercepting redirects from my CBSubs and Paypal extensions?

This is the error and URL info.

/my-profile/pluginclass?user=602&plugin=cbpaidsubscriptions

Fatal error: Class 'cbpaidHistory' not found in

/home/virtu309/public_html/administrator/components/com_arismartcontent/kernel/Web/class.TaskManager.php on line 114

Hello,

Could you provide a link to a page where we can see the problem and a temporary access to your J! backend by email so we can investigate the problem?

Working, Thanks!. Were the plugin settings wrong? Want to use on other sites and correct as needed.
