CSV Table not working

Posted by Nadia - 2013/04/18 09:58

_____

Hi,

I'm currently working with Joomla 3, and I need to create tables that will import csv data.

I have added the following code to the a specific article:

{aricsvtable file="images/excel_csv/lotto-results-mega-monday.csv"} {aricsvtablecolumns} {aricsvtablecolumn id="ID" alias="ID" width="20%" className="idg"} {aricsvtablecolumn id="NAME" alias="UserName" headerClassName="head"} {aricsvtablecolumn alias="Virtual Column" headerClassName="head" virtual="true"} {/aricsvtablecolumn} {/aricsvtablecolumns} {aricsvtablecolumnspan row="0" startIndex="0" endIndex="1"} {/aricsvtable}

Below is a screenshot of the data, but how do I get it to display in an actual table?

http://www.ari-soft.com/images/fbfiles/images/Untitled_1-9abecda7d86d57497e5620398fd2047c.jpg

I'm quite new to Joomla/csv, a step by step tutorial would really help. I'm probably missing something quite simple.

Nadia

_____

Hello,

Try the following plugin code:

{aricsvtable file="images/excel_csv/lotto-results-mega-monday.csv" delimiter=";"}{/aricsvtable}

Regards,
ARI Soft
