How to close JAccordion tab

Posted by avilovi - 2013/08/05 07:14

_____

Hello,

I'd like to know how to close JAccordion tab by clicking on its title (if it's possible.)

I'd like all the items to be closed at the start and to open/close them by clicking on the item's title.

Thank you very much in advance.

_____

Hello,

Add alwaysOpen="false" active="false" parameters to {arijaccordion} tag.

Regards,
ARI Soft
