
Export Buttons

Posted by dlarbale - 2013/08/16 04:11

I just installed DataTable Pack v. 1.9.1 and while I can show data I do not see a setting for showing Export buttons. From other threads it looks like it should be in Description area of the module but I don't see anything in the module configuration.

I am running Joomla! 2.5.14

<http://www.kids-table.com/joomla/index.php/test-report>

Thank you for your help.

Hello,

Export buttons are available in ARI Data Tables extension, not in "ARI Smart Content".

Regards,
ARI Soft
