How to remove \"Show entries\"

Posted by rscampanero - 2013/10/01 03:30

_____

Hello,

How can i remove "Show Entries" on top of the table?

But i dont want it to apply on all my tables on my website, i just want a single csv table to have this.

Thank you for your immediate response :D http://www.ari-soft.com/images/fbfiles/images/csv_table_help.png

_____

Hello,

Add the following attributes to {arijdatatable} tag:

oLanguage_sLengthMenu=" " oLanguage_sInfo=" "

Regards,
ARI Soft

_____

PFA my joomla article edit page and webpage.
How to remove "Show Entries"?
I am a novice, so could not understand how to implement the solution.
Please help.

Thank you

_____

Hello,

You use "ARI Data Tables" extension, not "ARI Smart Content". In your case open module settings page and set "Choose table type -> ARI Data Table -> Length menu label" parameter to empty value.

Regards,
ARI Soft
