
[SOLVED] Resizing CSV Table

Posted by rscampanero - 2013/12/04 09:36

Hello,

How can i resize the table to 50% and make all cells align to center?

Hello,

Add width="50%" parameter to {aricsvtable} tag.

inserted the width="50%" on {aricsvtable} tag, but the only thing that shrink was the content table and left the header and footer to 100%

Please take a look: <http://www.raspharma.com/products/laboratory-use/item/54-trimming-knife.html>

and the content is still left aligned and not on center.

Thank you for your assistance :D

Hi,

How can i left align the entire table when using a .csv file via the plug-in?

The table is 60% or XXXpx but it stays center and i would like to have it on the left extending out.

Thanks

Hello,

Send a link to a page where we can see the table and send an image where we can see what do you want to achieve.

Regards,
ARI Soft
