
Nivo Slider in template position not working

Posted by jemka - 2014/09/07 19:27

Hi,

using ARI Smart Content Nivo Slider in a article with {arimodule id="MODULEID"}{/arimodule} is working.
But when i set a module position, i only get a white blank page.

Joomla 3.3.3, PHP 5.4.32, Default Template

Is this issue known?

Thanks for helping, jemka.

Hello,

Could you provide a link to a page where we can see the problem and a temporary access to Joomla! backend by email so we can investigate it?

Regards,
ARI Soft

Download new version of the extension from "Member Area" on our site and upgrade it on your site. It should help to resolve the problem.

Regards,
ARI Soft

Yes now it works.

You are the best.

Thank you for this super fast service.

Bye jemka.
