## Problem with arijdatavisualizer

Posted by jjmm - 2014/10/12 10:49

---

Hi,

I had a problem with the Graph (arijdatavisualizer)

```
{arijdatavisualizer type="bar" hideTable="false" width="600" height="200" parseDirection="x" lineWeight="60"}
{arijdatatable bPaginate="false" bAutoWidth="true" bFilter="false" blInfo="false"}
{aristable}
{ariconnectionstring dbHost="..." dbUser="..." dbPass="..." dbName="..." dbType="mssql"}{/ariconnectionstring}
{aristablequery}EXEC RCT_JM_Web 'rcGraphLast6Weeks', @Weeks=10{/aristablequery}
{/aristable}
{/arijdatatable}
{/arijdatavisualizer}
```

The graph image

<http://www.ari-soft.com/images/fbfiles/images/Graph1.jpg>

Like you can see in this image the column of weeks should be the label and is ignored.

Can you please help me.

Thank you,  
JM

Hello,

Could you send a link to a page where the problem occurs?

Regards,  
ARI Soft

---

Table should be in the following format:

```
| w32 | w33 | w34 | w35 |
-----
Qty | 62 | 87 | 83 | 88 |
```

Regards,  
ARI Soft

---

Could you explain what's wrong? We don't see a table in format from our previous post on the page.

BTW, you can read here which format is used by "GChart" application from "ARI Smart Content" v. 2.x. For "ARI JDataVisualizer" from "ARI Smart Content" v. 1.x is used similar format.

Regards,  
ARI Soft

---

This is the type of graph I need. I can do it with excel.  
[http://www.ari-soft.com/images/fbfiles/images/Last\\_10\\_Weeks.png](http://www.ari-soft.com/images/fbfiles/images/Last_10_Weeks.png)

Can I do it with the arijdatavisualizer or it's impossible?  
If it is possible, how can i do it?

Thank you,  
JM

---

Yes, it is possible:

[http://www.ari-soft.com/images/fbfiles/images/line\\_chart.jpg](http://www.ari-soft.com/images/fbfiles/images/line_chart.jpg)

We used the following plugin code:

```
{arijdatavisualizer type="line" parseDirection="y" width="700" height="400"}  
... HTML table goes here ...
```

---

{/arijdatavisualizer}
