
How can I resize arijdatatable?

Posted by jjmm - 2014/11/08 16:11

Hi Ari-Soft,

It looks bad this way:

```
{arijdatatable bPaginate="true" bAutoWidth="true" sPaginationType="full_numbers"}
{aristable width="50%"}
{ariconnectionstring .... dbType="mssql"}{/ariconnectionstring}
{aristablequery}EXEC RCT_JM_Web 'BaseInfo'{/aristablequery}/{aristable}/{arijdatatable}
```

Thank you,
JM

Hello,

Try the following code:

```
{arijdatatable bPaginate="true" bAutoWidth="true" sPaginationType="full_numbers"}
{aristable}
{ariconnectionstring .... dbType="mssql"}{/ariconnectionstring}
{aristablequery}EXEC RCT_JM_Web 'BaseInfo'{/aristablequery}/{aristable}/{arijdatatable}
```

Regards,
ARI Soft

Awesome.
Thank you
JM
