
ARI SmartContent - DataTable error

Posted by ferdigerungan - 2014/12/03 12:06

Dear Support,

when using the ARI SmartContent - DataTable i found this error :

Notice: Undefined index: * in C:\Apache24\htdocs\BeStarFx_BP_v4\libraries\arismartcontent\htmltable\tmpl\htmltable.php on line 98

as the attached error... please help... thks http://www.ari-soft.com/images/fbfiles/images/AriSmartContent_DataTable_error_1.png

Hello,

Send a screenshot of module settings and screenshot(s) of data source settings by email.

Regards,
ARI Soft

Upgrade the extension to v. 2.2.2 or open
\administrator\components\com_arismartcontent\kernel\Application\ARISmartContent\Providers\Database\class.Database
QueryProvider.php file, find the following code:

```
if (strpos($dbCol, '*') != false)
```

and replace it with the following one:

```
if (strpos($dbCol, '*') !== false)
```

Regards,
ARI Soft
