
SQL: COTACT

Posted by mole - 2010/07/05 12:28

Hi Supporters!

I have a Problem with the output of arisqltable.

In the SQL-Code I use the following to get a Link to the users page:

```
CONCAT("", 'www', '') AS www
```

It does not work (I simplified it)!

- I only get 'www' as result in that output table field.
- my editor is on puretext
- something is kicking the html code

What is wrong?

Regards

Martin

Hello,

Could you provide temporary access to your Joomla! backend by email that we can investigate this issue?

Regards,

ARI Soft
