Hello

On pages with datatables I get this fatal error

Working properly, but appeared suddenly this error. I did not relate with any new installation of plugin or module.

Fatal error: Class 'AriKernel' not found in

xxxxxxxxxxxxx/plugins/system/arismartcontentloadmodule/arismartcontentloadmodule.php on line 55

Thanks

Hello,

Could you send a link to a page where the problem occurs and a temporary access to your J! backend by email so we can investigate the problem?

Regards,
ARI Soft
