
lightbox integration doesn't work

Posted by tonyhang - 2015/02/28 19:16

Hi,

I just bought ARI Smart Content. also downlaoded ARI Image Slider. I have installed them on my tesing site: icsaa.cn

I enabled all ARI plugins and chose ARI Sexy Lightbox for the option of "Lightbox integration". But I got error msg as follows:

Message

ARI Image Slider: "System - ARI Sexy Lightbox" plugin isn't installed.

I changed to "ARI Fancybox" then I got:

Message

ARI Image Slider: "System - ARI Fancybox" plugin isn't installed.

This tesing site is a brand new joomla site so that the joomla would be no issue. I also installed ARI to another live site of mine. The lightbox integration still doesn't work.

Could please help me check the issue on my tesing site?

Thank you very much!

Tony

Hello,

"ARI Sexy Lightbox" and "ARI Fancybox" are stand-alone extensions. "ARI Smart Content" contains "Sexy Lightbox" and "Fancybox" applications. They can be integrated with Nivo Slider application from "ARI Smart Content". "Nivo Slider" supports all features of "ARI Image Slider" extension plus extra features (ken burns effect, ability to show Flickr and Picasa images and etc.) so you can use "ARI Smart Content - Nivo Slider" module instead of "ARI Image Slider" and integrate it with "ARI Smart Content - Sexy Lightbox" or with "ARI Smart Content - Fancybox".

Regards,
ARI Soft

Thank you very much!

I bought ARI Sexy lightbox already. It works very well

Thank you very much!
