Validation error in arisqltable: cellPadding

Posted by twarfield - 2010/07/18 13:42
_____

The attributes cellPadding and cellSpacing need to be all lowercase.

Compare:
http://www.warfieldconsulting.com/jdata-table-test.html(validation results) and
http://www.warfieldconsulting.com/test3a.htm (with hard-coded fix)(validation results)

P.S. This post should have gone into the "ARI Smart Content" category, not "ARI Ext Menu", but I couldn't figure out how to change the category after posting.

_____

We have fixed this. Download and re-install the component, please.

Regards,
ARI Soft
